Candidate Brewster Issues Statement of His Position

George Brewster, 30, of 20610 Annrita Ave., Torrance, is a candidate for the Board of Education of the Torrance Unified School District because, as he says, "I want to serve."

If elected, Brewster says, "I would attempt to serve with courage of conviction, dedication and foresight, bringing with me to the Board an obligation to serve with integrity and intelligence the children, parents and educational professionals within the community."

Brewster says he is a candidate because, "I believe I have something to contribute to this community and to the welfare of my neighbors and my neighbor's children."

Brewster said that he is not a professional educator or an experienced school board member. "I am also the youngest of the candidates," he added.

However, said Brewster, his knowledge of the school system, its finances, and its relationship to the county and state is as generally complete and well-rounded as any of the various candidates, with the possible exception of the incumbents.

Brewster said he opposes increased taxation and the censorship of the superintendent or any school official. He opposes surrender of control or restriction of choice.

Brewster said he supports giving children as much as they need for the lowest cost and he supports a solid foundation in the fundamentals, among which he includes reading, grammar, vocabulary, arithmetic, spelling, arts, history, geology, economics, and written and oral expression.

He supports a "school board without domination

by any individual, and intelligent independent judgment for the benefit of all Torrance children.

Other points which Brewster cites are:

1. Support for the idea that public schools are the strongholds of our American democracy and should reflect the best in our heritage of freedom.

2. Support for the idea that it is both the right and duty of parents to know what goes on in the classrooms, as well as to communicate their wishes or opinions to school board members.

3. Support for better text books.

4. Support for the idea that our children should understand other forms of governmental theory as well as governmental practices, "including the brand of slavery being perpetrated by a handful of K's Kremlin Kriminals."

5. Support for training youngsters to utilize their minds to the fullest extent, to take the initiative to think for themselves, to be imaginative and inquiring, to gather facts and data, to apply logic and analysis, to consider all aspects and ramifications, and to reach their own conclusions while maintaining a ready willingness to listen to and to evaluate the merits of the thinking of others.

Work Okayed

Figuroa Street in the Carson area will be improved under terms of an agreement with the State Department of Public Works and the Board of Supervisors.

Supervisor Burton W. Chace said the resolution adopted by the Board of Supervisors authorizes the Figuroa project from Lo-
